Objective

Software Engineer specializing in **QA Testing** and **Web/App/Game Development**, Curious and innovative mind equally adept at aforementioned fields. An empathetic leader who strives to help others grow and develop their own talents.

Experience

Jul 2021 - Dec 2021

QA Tester • Trainee/Intern • White Circle Schools

- ★ Training in **Test Driven Development** environment, leveraging QA automation test suite to provide unit tests and integration tests for any new functionality.
- ★ Extensive training in specifically **Java** and **C#** methods for providing performant automation tests.

May 2018 - Jan 2022

SDET • Senior • Global Tell Link

- ★ Responsible for maintenance of existing applications with technologies such as **SQL, SQL Server, jQuery, HTML5, JavaScript, Angular, Bootstrap, .NET, and C#**.
- ★ Collaborating with QA engineering team to define test cases and metrics, and resolve questions about complex test results.
- ★ Built test automation framework for various software projects.

Aug 2014 - May 2018

App Developer • Junior • Digital Punk Studios

- ★ Collaborated with a team of 4 other engineers to design, engineer, and deploy an Android application with JavaScript, HTML5, and CSS3 for Digital Punk Studios.
- ★ Developed a safe space Web Application from scratch to protect users from predators online.
- ★ Primary focus on frontend optimization and performance techniques, using **HTML, CSS, JavaScript**, and other languages.
